Lately I have been doing a lot of grid work assignments, working on handbooks and other manuals, getting into a better creation flow with what creative works are in the creative Que and then about 5 days later those that control the weather throw this at us -

These storms are packed with artificial emotional subsets and V2K that has been forcibly pushed into my mind. The V2K runs off of an algorithm with focus points to try to destroy one's self esteem. All day I hear "you are so ugly, delete everything you have made. It's not good enough. You'll never be good enough"... blah blah blah on a repetitive cycle. The storms are created through Radome / radar systems. No weather is organic. All of those alert statements have been man made and deployed as a weapon. I have been communicating with the Aurora Rep. Elementals and the Cosmic Christos family on working together to dismantle this planned tropical storm. When it is constantly raining like this I realize and feel like they are trying to do Brain wave entrainment and get my brain into a delta or theta state for more control. I will workout to raise my brain oscillations back into a high gear gamma brain wave oscillation.

I ended up working out with some weights while the storm swept across the land. I found many pockets of black cube demonic warfare black cube death algorithms running through the storm because - keep in mind these storms are electrical. Nothing organic about electrical other than our brain being electrical based and that we are naturally electric beings.

In order to conserve my energy and leverage the law of conservation just read the synopsis. So many more things are happening but I'm running off of no sleep and as well as bone and fascia emf attacks. It hurts to type, it hurts to think. Please spread my website, handbooks and videos to anybody that you know. The list needs more exposure. That is how we are going to tackle this thing.... Until then, I will maintain my calmness while they attempt to ruin everything about my life.....

I actually contacted a TJ (targeted justice) board member about the bounty and attacks and he gaslit me.. he told me that I was not experiencing what I have been the last 48 hours and that I might should see a sleep doctor to get some sleep. I will win regardless if I have to do everything alone. I have undeniable evidence and I KNOW what is going on. I understand this T.I list better than anybody else only due to my levels of DNA Activation.

(Continued from the synopsis) I am so fed up with people treating us like the scum of the earth. The people at TJ (targeted justice) didn't give me the time of day to talk or show the hardcore evidence. The thing is if ... I'm just going to add an audio. Too much to write down.

TI Evidence - In-depth overview of Brain Mapping and Terraforming with Radome Systems - https://youtu.be/bcs_2EtcVEk

August 20 2024

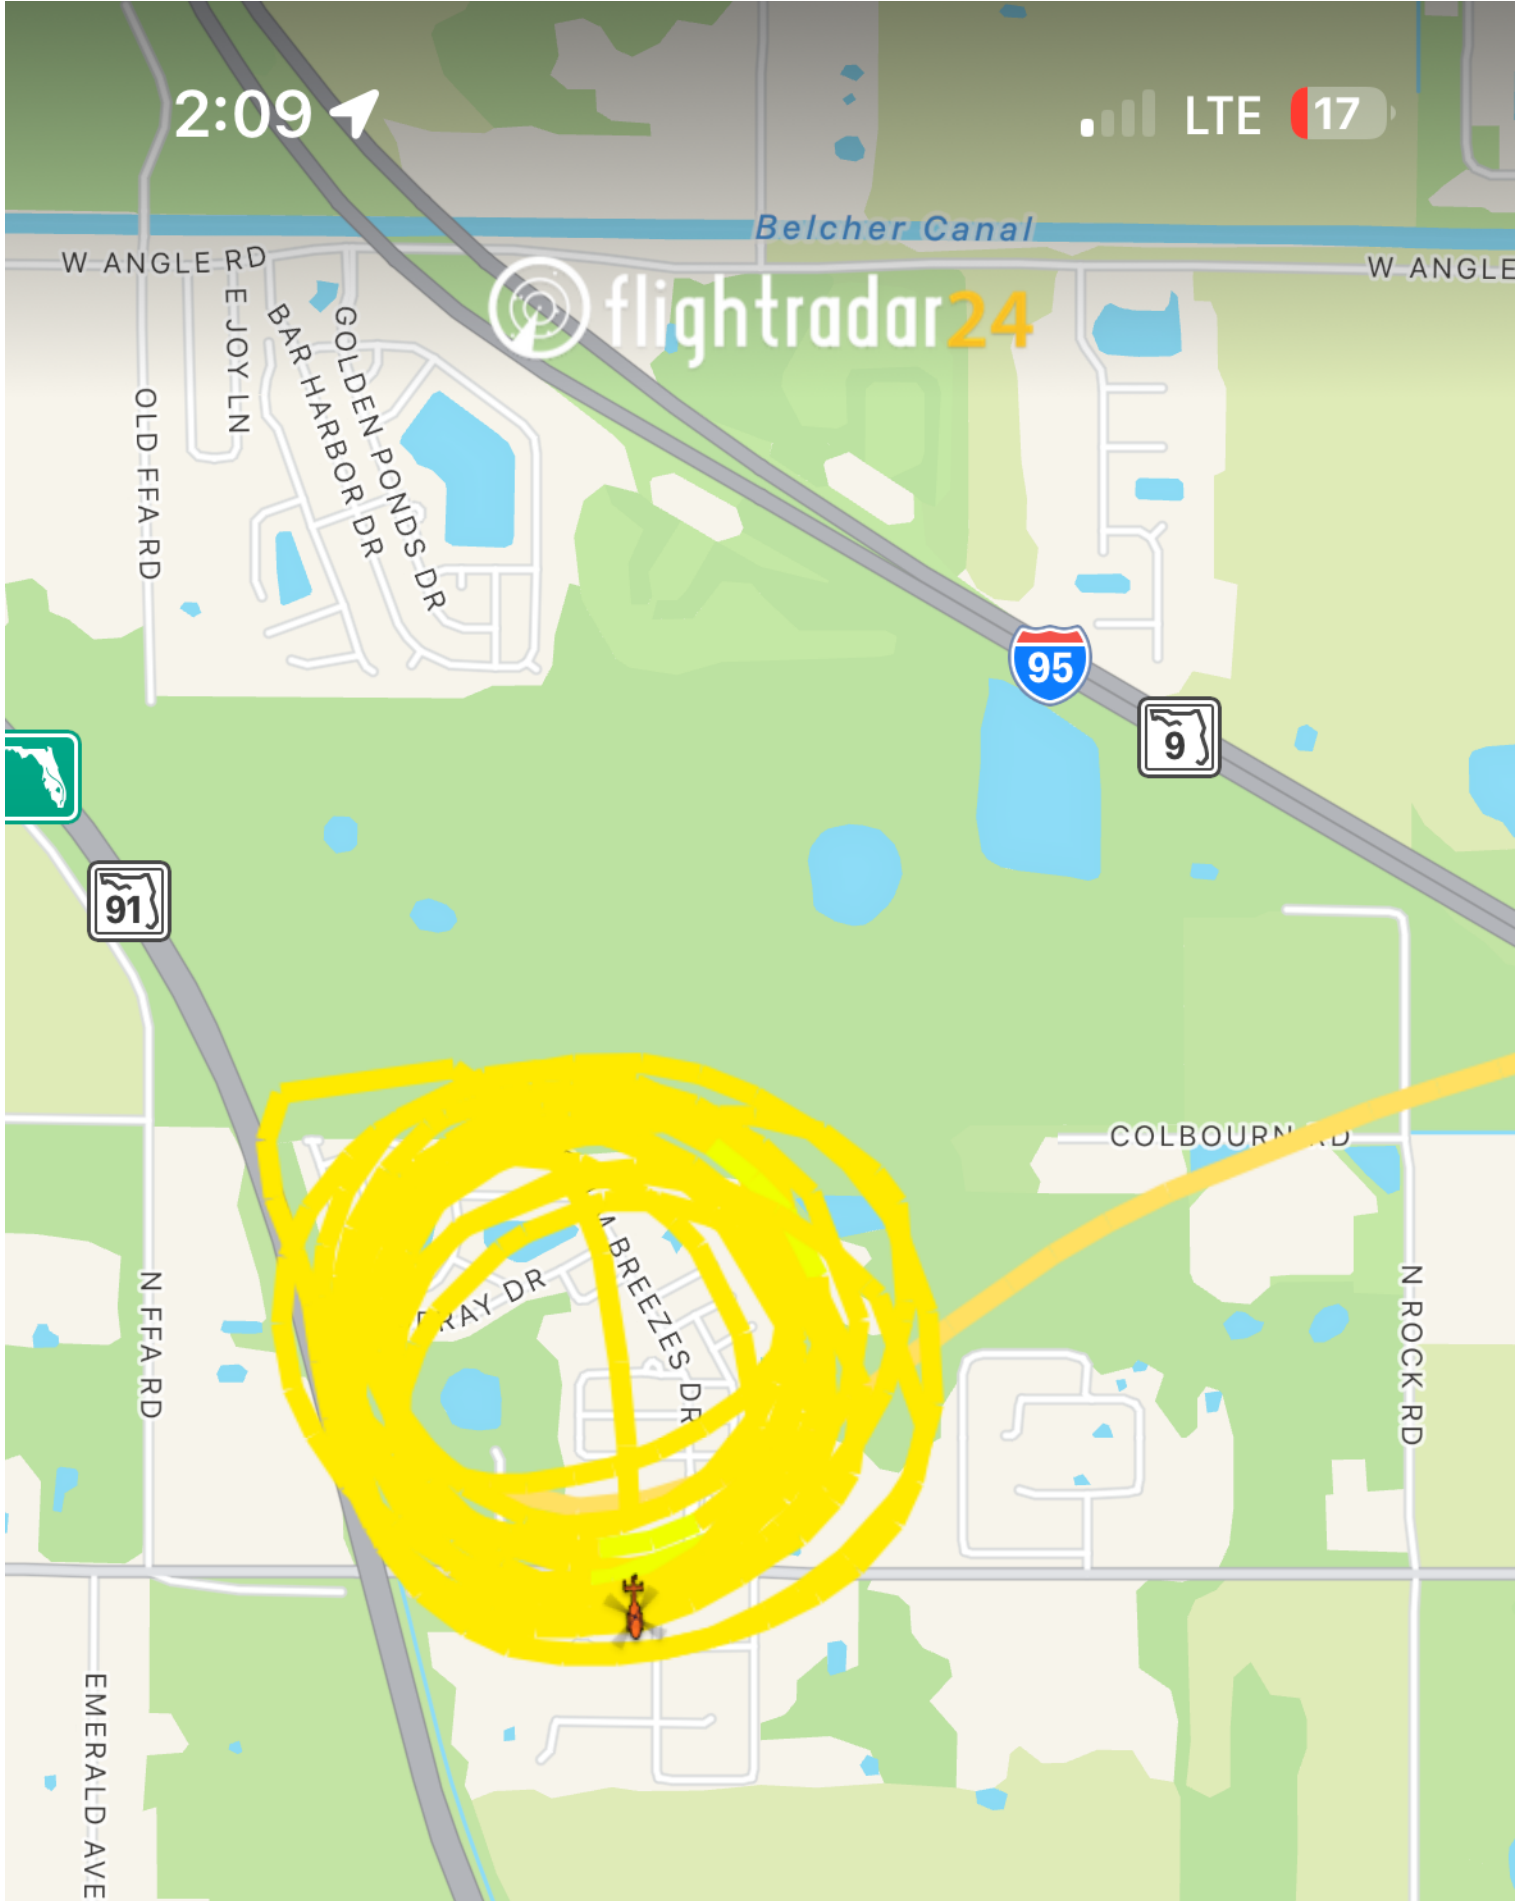

The attacks have gotten so severe and extreme that I pretty much live my life under a mylar blanket and I do not leave the house for any reason. Once the terraforming starts I have to get under something that deflects the waves physically or I'm just going to end up vomiting from the radiation. These are police officers deploying the attacks. I've reached out to so many people and I'm just being silenced. We move in ten days and it's just crazy that I have to move while every county police officer is trying to beam steer me and get my Brain signature. We will see how moving goes.

My husband is now waking up with bruises all over his body, deep purple and yellow bruises. When we sleep at night feel like we are just being battered. Last night we got beam steered super hard around 3 AM. The thing is when I see a helicopter orbiting like this

It always matches up to how I just start to feel absolutely horrible. Sometimes I'll be creating something , I'll start to feel something penetrating my heart or my throat beaming me with hot beams at the back of my head and then I will go look on the radar and I'll see police officers orbiting. Once they stop orbiting my pain stops. I do not care who you are these police officers are committing treason against innocent humans (us) They have been bean steering me with their Radome systems. It's highly aggravating when no one wants to listen to you. I have all the evidence to criminalize someone on the charges of torture and treason- some how ... no one is listening when I speak.

August 22 2024

We bought a tent so that we can cover it in Mylar. This tent is our new sleeping spot even though we pay 6k a month to live in a house. We needed a way to get away from the beam steering and I find that Mylar works better at deflecting the waves over emf silver materials. I use an emf protective blanket in conjunction with the Mylar blankets. When a helicopter starts orbiting, if we get up and move around with the Mylar it flies away because the encryption gets messed up I have so many examples of purposely messing up what these helicopters are doing on video recording.

Mylar tent:

As soon as 9:30 PM hit 5 different helicopters started orbiting for about 6 hours straight. In the same spot and same helicopters. Counties involved with the attempt for the night of Aug 22 is: Polk, Orange, Marion, Osceola county and their

n/a Bell OH Kiowas. The Mylar tent has really helped us with the ongoing beam steering with the Radome systems. I'm gathering as much information and evidence as I can. I started a new YT Channel called Targeted Individual Evidence where I am able to do somewhat daily diary entries to express things that do not reside in the Truth of Riza Architectural Design. That has been a great source of expression for me. Somewhere in the timelines the investigation will go down.

Today is August 27th 2024 and I have decided to officially close out these logs. I no longer want to use my energy in ways of writing down and logging all of their vitriolic attacks directed against my husband and I. I will continue to use the Targeted Individual List/ program as a form of Self Mastery Training, to say that I will make sure to become such a master of my emotions and mental states that any and all mind control weapons are null and void. I cannot be Brain washed because I take back my own sovereignty of my consciousness and what I choose to embody on this earthly realm. Many times these beings human and non human have overstepped fine lines- It is just not worth talking about due to the constant form of attack Because WHO me and my husband are and our genetic lineage communication network links. I am leveraging the Law of Conservation and flowing all of my creative life force energy into creating through collaboration efforts with Krystal Star Families handbooks and other personal world mission sets and tasks. Let it be very clear that the attacks are daily and they never let up, they simply change form. I have been able to master my embodiment of peace and Omni love and make their attacks similar to background noise in my incarnational design or reality experience. It is not a human creating V2K subsets it is a computer running algorithms of death and destruction. I am god sovereign free there for nullifying all kill, depression, and goat mind algorithms. I am the open door that no man can shut. I am the light of ten thousand cosmic eternal suns. I am placed in the winner's arena as cosmic order is being restored. The last update that I will leave here is that Black Sun Regressive's, from the use of emf weaponry at the ELF range via a police helicopter, targeted my husbands light body at the 5th umbilical, intestinal area with black sun demonics covering as the energetic signature of Giardiasis Protozoa. Some where through this AI mess someone is controlling and changing the molecular structure of my husband's fecal matter and controlling when my husband has bowel movements. There is actually no way that our light body could have gotten infested with parasites so it was forced upon my husband. They have been viciously trying to make my husband into an elder man that cannot control anything in his body including his thoughts. I did a spiritual deliverance session early AM and evicted the demonics from the umbilical area. These black sun demonics attempted to attach

another false umbilicus structure connected to a Wesadeck fallen phantom matrix filled with black grotesque creatures of lunar water astral sludge. Somedays the attacks become more and more complex. Right now I am assisting my husband in regaining sovereignty over his body since they quite literally forced an artificial parasitic infestation into his light body layers. They also did this when my husband first started rebuilding the umbilicus structures to our Cosmic Mother's Holy Vital Placen-TA and away from his earthly related mother.

They deploy highly agitating V2K subsets that say that they are killing my husband, we will make him defecate on himself forever.... All of these fear riddin algorithms and quiet honestly I do not care what so ever because that is not the truth of the matter.

The level of attacks are:

1. We have people still orbiting attempting to get brain signatures, beam steering with Radome systems that create radiation poisoning if it hits your body for more than 30 minutes. Radiation poisoning experienced as vomiting, sweating profusely, loss of appetite, inability to think straight, extreme nausea
2. we have resorted to sleeping in a three person tent covered in Mylar in order to deflect the attacks of radiation poisoning. Paying 6k for a house, monthly rent when you can't even use the beds and the ac doesn't work. Have to sleep in a Mylar tent in order to keep your health levels going for the next missions task.. I mean what the ???
3. Someone, my guess is a satellite keeps hitting the ac unit and rendering it broken. It shuts on and off every five minutes. They keep using an algorithm to hit the ac when it starts working correctly. The night of August 27 it got to 83' in the house. You may be asking - well why don't you have someone come look at your ac, because there is nothing wrong with the unit, it was working just fine for a whole two months then we crossed over to Aug 1, plus I'm working on projects to where I can't have strangers coming in and out of the house. I've already been through this rally round about where they break something only for someone to come in and it is magically working fine until they leave and then it's broken again which is more cash grabs paying for maintenance problems when it isn't that. You have to think critically on this list because at any moment they are also trying to financially deplete you. Anyways so it's 82/83' degrees in the house AND you have to sleep in an Mylar tent to deflect the radiation poisoning. When you try to tell others about it they chalk it up to a gaslighting conversation. Right now I have been ordained holder, protector of the 2nd grail - grual stargate and ever since me and my husband got anywhere near Sarasota, NA have been trying to run us out of the state, so moving out of this hot state is not an option right now. That is what is going on, on a day to day basis ontop of everything else like directed V2K and microwave attacks if I enjoy any part of my life. Our solution is To stock up on cooling blankets and pillows in order to keep our body temperatures down at least a little bit.

I am grounded in my truth and I nullify all attempts to make my consciousness spiral into a downward spiral. I elevate to higher levels everyday in alignment with my purest truth. I know we are deeply cared for by our family of source light and code. Everything will continue to be more than okay even through all of these vitriolic attacks. They are daily and sometimes escalate through what grid working tasks I am handed to complete as a team effort. I will continue to conduct my tasks through the levels of absolute precision and maintain neutrality as so aligned and connected to the embodiment structures of my highest embodiment. I am on the spiral path of a new beginning constantly and I choose to grow my soul and fulfill my heroic probability.

Signing off in truth,
Riza Harris
